PATENT APPLICATION for:

"Inhalable aerosol medicament for the treatment or prevention of pain"

in the name of

L'AIR LIQUIDE SANTE (INTERNATIONAL)

Inventors: M. LEMAIRE - L. LECOURT - F. LESCURE

ABSTRACT

The invention concerns the use of at least one gas in combination with at least one active product manufacturing an inhalable medicament or part of an inhalable medicament intended for the treatment prevention of pain in humans or animals. The gas is chosen from among helium, oxygen, nitrogen, hydrogen, carbon monoxide (CO), carbon dioxide (CO2), krypton, nitrogen monoxide (NO), protoxide (N2O), carbonated hydrocarbons, fluorocarbons and mixtures of several of these gases. The active product is chosen from among paracetamol, acetylsalicylic acid, arylcarboxylic acid, corticosteroids, mineralosteroids, non-steroidal antiinflammatory drugs and their derivatives, codeine and its derivatives, morphine and morphine mimetics.
